Truck drivers compete, promote safety

Lansing State Journal

Lansing-area lift-truck drivers were on hand today to navigate an obstacle course, race and promote safety.

It was all part of the Iron Horse Rodeo Championship at Lansing Community College's West Campus.

The event, sponsored by the Capital Area Manufacturing Council, Lansing Area Safety Council and LCC, was designed to showcase driver's skills and emphasize the importance of lift-truck safety and training programs.

Drivers from local manufacturers competed by completing a driving obstacle course. The driver with the fastest time won.
